Dear Gil

I would be grateful if you could circulate a personalized invite to all Israeli Surgeons and Cardiologists to submit Abstracts to the 26th Meeting of the WSCTS which is held in conjunction with the Annual SA Heart Association Cardiac Meeting, the latter being Cardiologists, the former dominantly Surgeons.

This is a Meeting where both Surgeons and Cardiologists will meet at the same Forum and promises to be very informative for both arms of the same discipline. Although the deadline for Abstracts submissions is for the 3rd May 2016, we will endeavour to review and accept as many Abstracts from Israel for the meeting.

With kind regards
Yours sincerely

MR ROBERT KLEINLOOG
