

The 3rd International Israeli Conference on Pulmonary Arterial Hypertension

Day 1: Wednesday, 14 October 2015

- 08:30 – 09:10 Registration
09:10 – 09:20 Welcome greeting – Y. Adir, Chair, Organizing committee
- Session 1 – Pulmonary arterial hypertension: Challenges in diagnosis and evaluation**
- Chairs:** M. Kramer, A. Shiran
- 09:20 – 09:40 Pulmonary hypertension diagnostic algorithms and risk assessment – S. Gaine
09:50 – 10:00 Right Heart Catheterization is Essential for the Diagnosis of Pulmonary hypertension – O. Sitbon
10:00 – 10:20 Echocardiography for screening and follow-up of PAH – JL. Vachiery
10:20 – 10:40 RV function an indicator of prognosis and response to therapy – A. Vonk Noordegraaf
- 10:45 – 11:15 **Coffee break**

Session II – Group I – PAH

Chairs: A. Balabir, T. Shonfeld

- 11:30 – 11:50 PAH associated with congenital heart disease – JL. Vachiery
11:50 – 12:10 PAH associated with CTD – S. Gaine
12:10 – 12:30 PAH and portal hypertension – O. Sitbon
12:30 – 12:50 Drug-induced PAH & PVOD – M. Humbert
- 13:00 – 14:00 **Lunch break**

Session III – GRAND ROUND – interactive session

Chairs: R. Drago, D. Shitrit

- 14:00 – 14:15 Case 1: PH in pregnancy – O. Sitbon
14:15 – 14:30 Case 2: PVOD. A – Vonk Noordegraaf
14:30 – 14:45 Case 3: CTEPH case – G. Simonneau
14:45 – 15:00 Case 4: CTD case – S. Gaine
15:00 – 15:15 Case 5: Severe PAH and RHF – J. Granton

Day 2: Thursday, 15 October 2015

Session IV – Group III Pulmonary Hypertension

Chairs: A. Ariel, D. Ben-Dayana

- 09:20 – 09:40 PH associated with COPD – A. Chaouat
09:40 – 10:00 PH in ILD and rare lung disease – S. Harari

Session V – Pro-Con debate – Specific PAH treatment for pulmonary hypertension and heart failure

- 10:10 – 10:20 Pro-N. Galie
10:20 – 10:40 Con-JL. Vachiery
10:40 – 11:00 Discussion
- 11:00 – 11:30 **Coffee break**

Session VI – From VTE to CTEPH

Chairs: N. Berkman, M. Segal.

- 11:30 – 11:50 Pulmonary embolism: who should receive thrombolysis? – N. Galie
11:50 – 12:10 From acute pulmonary embolism to chronic thromboembolic pulmonary hypertension: do we need to follow up our patients with acute pulmonary embolism? – L. Rubin
12:10 – 12:30 A multimodality approach to CTEPH, medical therapy, balloon angioplasty and surgery – G. Simonneau
- 12:30 – 13:30 **Lunch break**

Session VII – Treatment approach to PAH

Chairs: M. Kramer, B. Fox

- 13:30 – 13:50 Parenteral prostacyclin in PAH – L. Rubin
13:50 – 14:10 Oral prostacyclin derivatives and oral prostacyclin receptor agonist in PAH – O. Sitbon
14:10 – 14:30 The AMBITION trial – N. Galie
14:30 – 14:50 ICU management of severe PAH patients with RHF and bridging to transplantation – J. Granton
14:50 – 15:10 Current PAH management – M. Humbert
