

The 3rd Mayo-Sheba Cardiovascular Symposium

16th -17th December, 2015

Leviev Heart Center Auditorium, Sheba Medical Center

Preliminary Program

Faculty:

Sam Asirvatham (Cardiovascular Division, Mayo Clinic, USA)

Paul Friedman (Cardiovascular Division, Mayo Clinic, USA)

Amir Lerman (Cardiovascular Division, Mayo Clinic, USA)

Charanjit Rihal (Cardiovascular Division, Mayo Clinic, USA)

Ilan Goldenberg (Leviev Heart Center, Sheba Medical Center, Israel)

Jonathan Leor (Leviev Heart Center, Sheba Medical Center, Israel)

Ori Vaturi (Leviev Heart Center, Sheba Medical Center, Israel)

Leonid Sternik (Leviev Heart Center, Sheba Medical Center, Israel)

Michael Shechter (Leviev Heart Center, Sheba Medical Center, Israel)

Israel Barbash (Leviev Heart Center, Sheba Medical Center, Israel)

Eyal Nof (Leviev Heart Center, Sheba Medical Center, Israel)

Michael Glikson (Leviev Heart Center, Sheba Medical Center, Israel)

Day 1: 16/12/15

Session 1

08:30-08:45 **Greetings:**
Yakov Litzman,
Minister of Health, Israel
Zeev Rotstein,
CEO Sheba Medical Center
M. Glikson, M. Eldar, E. Raanani,
Leviev Heart Center
A. Lerman, C. Rihal, Mayo Clinic

08:45 -09:30 **Grand Rounds : Pitfalls in clinical decision making using case examples from the literature.**
Charanjit Rihal, Chair, Cardiovascular Division, Mayo Clinic Rochester MN

09:30-09:50 **The future of cardiovascular research.**
(Amir Lerman)

09:50-10:10 **Controlled trials, registries and what is between them.**
(Ilan Goldenberg)

10:10- 10:30 **Macrophage: The secret agent of myocardial regeneration and repair.**
(Jonathan Leor)

10:30-11:00 **Coffee/tea Break**

Session 2 : Pacing and Arrhythmia

11:00 -11:20 **New emerging and future cardiac device therapies: leadless pacing, subcutaneous ICDs, percutaneous epicardial leads and more – what's new and promising?**
(Paul Friedman)

11:20 -11:40 **Why does LV pacing work?**
(Sam Asirvatham)

11:40 -12:00 **Imaging for resynchronization therapy.**
(Ori Vaturi)

12:00 -12:20 **Contemporary surgery for atrial fibrillation.**
(Leonid Sternik)

12:20 -12:40 **Ventricular Fibrillation: Management beyond ICD.**
(Sam Asirvatham)

12:40-13:00 **Ablation of PVCs: who what where when and how.**
(Paul Friedman)

13:00-13:30 **Lunch Break**

Session 3:

Coronary and Interventional Cardiology

13:30 -13:50 **The approach to patients with non obstructive coronary disease.**
(Amir Lerman)

13:50 -14:10 **Noninvasive endothelial function evaluation – what is its role ?**
(Michael Shechter)

14:10 -14:30 **Paravalvular Leak Closure: Techniques and Outcomes.**
(Charanjit Rihal)

14:30 -14:50 **Insights from the Israeli TAVR Registry**
(Israel Barbash)

14:50-15:10 **Septal Reduction Therapy Cardiomyopathy: Indications, pitfalls and current role in the therapeutic sequence of HOCM.**
(Charanjit Rihal)

15:10-15:30 **Eating for the healthy heart**
(Amir Lerman)

15:30 **Concluding remarks**

Day 2: 17/12/15

Seminar on the Use of Ultrasound Tools in Interventional Electrophysiology

Supported by a grant from J&J and Biosense-Webster.

2 Live cases on the use of CARTOSOUND® in ablations.

Talks between case transmissions :
(Paul Friedman and Sam Asirvatham)

Cardiac anatomy by the eyes of ICE / Cartosound.

What are the most important uses of ICE and Cartosound in interventional EP.

Principles of the Cartosound system.

VPC/VT ablation - relevant anatomy and the use of ICE/Cartosound.

Registration:

Marketing department, Sheba Medical Center

E-mail: marketing@sheba.health.gov.il

Tel: +972-3-5305000, choose line 0 and then line 2, 8:00- 16:00

ENTRANCE IS FREE.
