

Program at a Glance (Preliminary)

Sun. 15 th Oct.	
14:00-19:00	Registration, Minicourses
19:00-22:00	Get Together Reception

Mon. 16 th Oct. BASIC SCIENCE & CLINICAL SESSIONS				
08:30-10:00	Basic EP	Pediatric Cardiology	Pacing & EP	Allied Professionals
10:30-12:00	PLENARY SESSION I			
12:15-14:15	Luncheon Sessions			
14:30-17:30	Basic EP	Pediatric Cardiology	Pacing & EP	Allied Professionals

Thu. 17 th Oct. BASIC SCIENCE & CLINICAL SESSIONS					
08:30-10:00	Basic EP	Pacing & EP	Surgery for AF	Session of ICCU WG	Holter & Noninvasive Cardiology
10:30-12:00	PLENARY SESSION II				
12:15-14:15	Luncheon Sessions				
14:30-17:30	Basic EP	Defibrillation	Clinical EP	Invasive Cardiology WG	Holter & Noninvasive Cardiology

Wed. 18 th Oct. CLINICAL & TRANSLATIONAL SESSIONS				
08:30-10:00	Clinical EP	Pacing	Family Physicians	Holter & Noninvasive Cardiology
10:30-12:00	CMPs & Arrhythmias	Autonomic Dysfunction	Family Physicians	Holter & Noninvasive Cardiology
12:15-14:15	Luncheon Sessions - Meet the Experts			
14:30-18:00	Clinical EP	Pacing	Sport & Arrhythmias	Holter & Noninvasive Cardiology

Deadline for Submission of Abstracts: July 15, 2006

Further information on the program will be available on-line in our Web site:

Cardiac Arrhythmias 2006

The 8th International Dead Sea Symposium (IDSS)

The 17th Rappaport Symposium

A Joint Meeting

Consensus and Controversy in Cardiac Arrhythmias - 2006

October 15-18, 2006

Hilton Convention Center

Tel-Aviv, Israel

www.congress.co.il/arrhythmia06

Dear Colleagues and Friends,

The joint meeting of 8th International Dead Sea Symposium (IDSS) and 17th Rappaport Symposium - CONSENSUS AND CONTROVERSY IN CARDIAC ARRHYTHMIAS – will take place at the Hilton Convention Center, Tel Aviv, 15-18 October 2006.

The integration of the two meetings optimizes presentation of the latest investigations in cardiac arrhythmias. The Executive Scientific Board of the symposium is working on developing a high-quality program. This program will reflect the advances in understanding in all fields of arrhythmias: the basic mechanisms governing the electrical signals from cell to bedside, covering emerging concepts in ion channel kinetics, as well as diagnostic, prognostic and therapeutic applications of electrophysiology will be discussed in a special two day program with participation of leading specialists.

Hot topics on adult and pediatric cardiology, including non-pharmacological treatment of CHF and AF, will be discussed in dedicated sessions and satellite symposia. Workshops on implantation systems for CRT and Echo-Doppler will be held and live sessions will be organized. Other sessions will include sudden cardiac death, the results of large clinical trials, as well as the latest technologies in arrhythmia management.

New applications in increasing use of telemedicine, advances in noninvasive methods for diagnosis, prognosis and therapy of arrhythmias –are just some of the many topics in the special program dedicated to noninvasive electrocardiology.

We believe the symposium will be an excellent platform for exchanging and sharing ideas, knowledge of the most recent developments and the newest information in all important aspects of basic and clinical, invasive as well noninvasive electrocardiology.

This year's joint symposium will undoubtedly appeal to professionals in all disciplines dealing with arrhythmia patients: cardiologists, internists, and general practitioners, physicians working in intensive cardiac care and surgical units, as well as those involved in basic scientific research in the clinical, academic and industrial setting.

On behalf of the Organizing and Scientific Committees of the Joint Symposium I look forward to welcoming participants from all over the world to Tel Aviv in October 2006.

Sincerely Yours,

Prof. I. Eli Ovsyshcher, MD, PhD, FESC, FACC, MAHA
President of the Symposium
