

בשיתוף עמותה לקרדיולוגיה בישראל (ע"ר)

כנס החורף – מפגש מדעי מטעם האיגוד הקרדיולוגי בישראל

14-16 לפברואר 2019 במלון דויאל ביץ' אילת

Thursday | 14.2

17:00-19:30 **Hot Topics Lectures**

Chairpersons: Amit Segev | Shmuel Fuchs

17:00-17:30 **Mitral Clip post COAPT and MITRA France - where are we heading?**

Paul Fefer

17:30-18:00 **Poly-vascular Atherosclerotic Disease - Can we do a better job?**

Alon Eisen

18:00-18:30 **Innovation in treating Cardiac Amyloidosis**

Tal Hasin

18:30-19:00 **Patient-Reported Outcomes (PROMs) in Cardiology - What really matters to patients and how to assess it?**

Ran Kornowski

19:00-19:30 **Highlights from ACSIS 2018**

Zaza Iakobishvili

Friday | 15.2

08:30-12:00

Chairpersons: Eli Lev | Doron Zahger

08:30-09:00 **Topic #1**

08:30-08:40 **Most AF patients undergoing PCI will need Triple anti-thrombotic pharmacotherapy**

Yaron Arbel

08:40-08:50 **Most AF patients undergoing PCI will need Dual anti-thrombotic pharmacotherapy**

Elad Asher

08:50-09:00 **Discussion**

09:00-09:30 **Topic #2**

09:00-09:10 **Most Stable CAD patients should be treated conservatively w/o PCI**

Shaul Atar

09:10-09:20 **Most Stable CAD patients should be treated using PCI**

Israel Barbash

09:20-09:30 **Discussion**

09:30-10:00 **Topic #3**

09:30-09:40 **Impella or ECMO are MUST devices for treating cardiogenic shock**

Katia Orvin

09:40-09:50 **Impella or ECMO are NOT must devices for treating cardiogenic shock**

Koby Shacham

09:50-10:00 **Discussion**

10:00-10:30 **Coffee Break**

Chairpersons: Michael Glikson | Avital Porter

10:30-11:00 **Topic #4**

10:30-10:40 **AF Ablation post CABANA trial: the positive perspectives**

Moti Haim

10:40-10:50 **AF Ablation post CABANA trial: the disappointing perspectives**

Guy Rozen

10:50-11:00 **Discussion**

11:00-11:30 **Topic #5**

11:00-11:10 **MSCT for screening of asymptomatic CAD should be implemented as widely as possible**

Ashraf Hamdan

11:10-11:20 **MSCT for screening of asymptomatic CAD should not be implemented widely as it does not change the cardiac prognosis**

Ronen Rubinshtein

11:20-11:30 **Discussion**

11:30-12:00 **Topic #6**

11:30-11:40 **Percutaneous TMVR will probably follow the footsteps of TAVR**

Mony Shuvy

11:40-11:50 **Unlike TAVR, TMVR will probably not replace surgical MVR in the near future**

Leonid Sternik

11:50-12:00 **Discussion**

Saturday | 16.2

10:00-11:00 **Panel**

About professional burnout among cardiologists and what to do in order to prevent it?

11:00-12:00 **Invited Speaker**
