Chief Executive Officer

May 5, 2020

Dear Dr. Dannenberg,

In light of recent developments around the COVID-19 pandemic, SCAI will be transitioning SCAI 2020 Scientific Sessions from a live event taking place in Atlanta from May 14-16 to a virtual meeting featuring a combination of live-streamed and recorded content available on demand. Best yet, recognizing that many live congresses have been cancelled and there is still a huge need for quality interventional cardiovascular education to advance care for our patients, SCAI will be making SCAI 2020 Virtual free to participate for the first 30 days.

As the Israel Working Group on Interventional Cardiology (Israel Heart Society) is a valued Interventional Cardiology Society, SCAI would like to invite you to share this news with your members and encourage them to participate in SCAI 2020 Virtual. To help share key highlights from SCAI's virtual program and the free registration link, I have attached a PDF flyer which can be sent via email to your membership.

Key Program Highlights for SCAI 2020 Live Programming

- COVID-19 Session: Perspectives from the Front Lines of the Pandemic featuring Dr. Shao-Liang Chen, MD, FSCAI, Nanjing First Hospital, China Alaide Chieffo MD, FSCAI, San Raffaele Hospital, Milan, Italy
- Coronary, Peripheral, Structural and Congenital Interventions and Quality in the Cath Lab
- Lessons from the ISCHEMIA Trial
- Emerging and State-Of-The-Art Therapies in Structural and Valvular Heart Disease and Complex Peripheral Vascular Disease
- Live Case Based Complication Management
- Featured Clinical Research
- Live Discussion with Q&A
- **33 hours of programming for the live virtual conference**

Register Now for Free and Explore the Program and Faculty. For more information please visit www.scai.org/SCAI2020.

Sincerely,

Eric Grammer
Vice President, Industry & Global Partnerships
